Coding 3 — Class Wizard

Polimorfisme dalam Pemrograman Gim (C#) • File kode: Wizard.cs

```
using System;

namespace GamePolymorphism
{
    public class Wizard : Hero
    {
        public int bonusMagic;

        public override void UseSkill()
        {
            base.UseSkill();
            Console.WriteLine("BONUS MAGIC = " + bonusMagic);
        }
    }
}
```
